MONTGOMERY COUNTY HISTORIC PRESERVATION COMMISSION
STAFF REPORT

Address: 24 Philadelphia Ave., Takoma Park  Meeting Date: 5/23/18
Resource: Contributing Resource  Report Date: 5/16/18
Takoma Park Historic District
Applicant: Dana Martin  Public Notice: 5/9/18
Review: HAWP  Tax Credit: n/a
Case Number: 37/03-18KK  Staff: Dan Bruecht
Proposal: Tree Removal

STAFF RECOMMENDATION
Staff recommends the HPC approve the HAWP application.

ARCHITECTURAL DESCRIPTION
SIGNIFICANCE: Contributing to the Takoma Park Historic District
STYLE: Bungalow
DATE: c.1915-1925

The subject property is a one-and-a-half story stucco bungalow with a side gable roof. There is a driveway to the right of the house that provides visibility between 24 and 22 Philadelphia Ave.

BACKGROUND
On March 8, 2017 the HPC approved the removal of six of the nine Leland cypress trees along the right property boundary of 24 Philadelphia Ave. One of the remaining three trees fell in March 2018.
PROPOSAL
The applicant proposes to remove two Leland cypress trees from the rear of 24 Philadelphia Ave.

APPLICABLE GUIDELINES
When reviewing alterations and new construction within the Takoma Park Historic District several documents are to be utilized as guidelines to assist the Commission in developing their decision. These documents include the historic preservation review guidelines in the approved and adopted amendment for the Takoma Park Historic District (Guidelines), Montgomery County Code Chapter 24A (Chapter 24A), and the Secretary of the Interior’s Standards for Rehabilitation (Standards). The pertinent information in these documents is outlined below.

Takoma Park Historic District Design Guidelines
There are two very general, broad planning and design concepts which apply to all categories. These are:

The design review emphasis will be restricted to changes that are at all visible from the public right-of-way, irrespective of landscaping or vegetation (it is expected that the majority of new additions will be reviewed for their impact on the overall district), and,

The importance of assuring that additions and other changes to existing structures act to reinforce and continue existing streetscape, landscape, and building patterns rather than to impair the character of the district.

Contributing Resources should receive a more lenient review than those structures that have been classified as Outstanding. This design review should emphasize the importance of the resource to the overall streetscape and its compatibility with existing patterns rather than focusing on a close scrutiny of architectural detailing. In general, however, changes to Contributing Resources should respect the predominant architectural style of the resource. As stated above, the design review emphasis will be restricted to changes that are at all visible from the public right-of-way, irrespective of landscaping or vegetation.
Some of the factors to be considered in reviewing HAWPs on Contributing Resources include:

Alterations to features that are not visible at all from the public right-of-way should be allowed as a matter of course.

All changes and additions should respect existing environmental settings, landscaping, and patterns of open space.

*Montgomery County Code, Chapter 24A Historic Resources Preservation*

(b) The commission shall instruct the director to issue a permit, or issue a permit subject to such conditions as are found to be necessary to insure conformity with the purposes and requirements of this chapter, if it finds that:

1. The proposal will not substantially alter the exterior features of an historic site or historic resource within an historic district; or
2. The proposal is compatible in character and nature with the historical, archeological, architectural or cultural features of the historic site or the historic district in which an historic resource is located and would not be detrimental thereto or to the achievement of the purposes of this chapter; or

**STAFF DISCUSSION**

The applicant proposes to remove the remaining two Leland cypress trees in the rear yard, to the right of the historic house. Staff supports approval of this HAWP.

The applicant identifies these trees as having been planted in the 1980s. They do not individually have historic character; however, they do add to the mature canopy of the Takoma Park Historic District.

Staff’s research regarding Leland cypress trees is that they are frequently a desirable species because they grow quickly, survive in poor soil and, and create very good privacy screening. Problems arise when they are allowed to grow unchecked, as is the case here. They trees become very top heavy and are prone to blowing down. This is what occurred to the tree shown in page 7 of the application (see Circle: 111). It is because of this condition that the applicant desires to remove the two remaining Leland cypresses.

The City of Takoma Park has granted preliminary approval for the removal of these trees with the requirement that the applicant either plant five 1½” caliper category 3 evergreen trees or to pay a fee in lieu to the City’s tree fund (the City’s tree ordinance does allow residents to plant fewer than required number of trees and reduce the fee on a pro rata basis).

Staff finds that as these trees are in the rear of the property that their removal will not significantly alter the environmental setting of the Takoma Park Historic District (per the Guidelines). Additionally, Staff finds that should a HAWP not be granted there is a strong likelihood that the trees will become a hazard to adjacent historic resources within the district. Staff recommends the HPC approve the tree removal.
STAFF RECOMMENDATION
Staff recommends the HPC approve the HAWP application; with the general condition applicable to all Historic Area Work Permits that the applicant will present 3 permit sets of drawings to HPC staff for review and stamping prior to submission for permits (if applicable). After issuance of the Montgomery County Department of Permitting Services (DPS) permit, the applicant will arrange for a field inspection by calling the DPS Field Services Office at 240-777-6370 prior to commencement of work and not more than two weeks following completion of work.

Page 1 of 12
THE FOLLOWING ITEMS MUST BE COMPLETED AND THE REQUIRED DOCUMENTS MUST ACCOMPANY THIS APPLICATION.

1. WRITTEN DESCRIPTION OF PROJECT
   a. Description of existing structure(s) and environmental setting, including their historical features and significance:
   "Removal of two Leland Cypress trees which pose a safety hazard. City of Takoma Park has provisionally granted a tree removal permit (attached). Pending HAWP). A HAWP was granted last year to remove two of these trees, City of TP Park had done it as to 3 years. One of these has now fallen and the City now agrees that the remaining two trees should be removed. I will plant replacements (less hazardous)."

2. SITE PLAN (Attached)
   Site and environmental setting, drawn to scale. You may use your plot. Your site plan must include:
   a. the scale, north arrow, and date;
   b. dimensions of all existing and proposed structures and site features such as walkways, driveways, fences, ponds, streams, trash dumpsters, mechanical equipment, and landscaping.

3. PLANS AND ELEVATIONS
   You must submit 2 copies of plans and elevations in a format no larger than 11" x 17". Plans on 8 1/2" x 11" paper are preferred. N/A.
   a. Schematic construction plans, with marked dimensions, indicating location, size and general type of walls, window and door openings, and other fixed features of both the existing resource and the proposed work.
   b. Elevations (facades), with marked dimensions, clearly indicating proposed work in relation to existing construction and when appropriate, contact.

4. MATERIALS SPECIFICATIONS
   General description of materials and manufactured items proposed for incorporation in the work of the project. This information may be included on your design drawings. N/A.

5. PHOTOGRAPHS (Attached)
   a. Clearly labeled photographs of each phase of existing resource, including details of the affected portions. All labels should be placed on the front of photographs.
   b. Clearly label photographs of the resource as viewed from the public right-of-way and of the adjoining properties. All labels should be placed on the front of photographs.

6. TREE SURVEY N/A
   If you are proposing construction adjacent to or within the circumference of any tree 6" or larger in diameter (at breast height above the ground), you must file an accurate tree survey identifying the size, location, and species of each tree at least that dimension.

7. ADDRESSES OF ADJACENT AND CONFRONTING PROPERTY OWNERS (Attached)
   For all projects, provide an accurate list of adjacent and confronting property owners (not tenants), including names, addresses, and zip codes. This list should include the owners of all lots or parcels which adjoin the parcel in question, as well as the owner(s) of lot(s) or parcel(s) which lie directly across the street/highway from the parcel in question.

PLEASE PRINT IN BLUE OR BLACK INK OR TYPE THIS INFORMATION ON THE FOLLOWING PAGE.
PLEASE STAY WITHIN THE GUIDES OF THE TEMPLATE, AS THIS WILL BE PHOTOGRAPHED DIRECTLY ONTO MAILING LABELS.

Re: same

Dear Dana Martin,

The City of Takoma Park has granted preliminary permit approval for you to remove the 16" d.b.h. Leyland Cypress tree (3 replants) from the right side and the 12" d.b.h. Leyland Cypress tree (2 replants) from the right side of your property.

Preliminary approval means that the City will post your property for a 15 day period beginning 03/09/18 and ending 03/24/18 for public comment. You will be granted a permit to remove the tree(s) pending the City’s receipt of your signed agreement to adhere to the City’s tree replacement requirements. Additionally, since your property is located within the Historic District, you are required to receive a HISTORIC AREA WORK PERMIT. To apply for a HAWP, contact Montgomery County Department of Permitting Services at 240-777-3400 or online at:

Please submit both the signed replanting agreement and a copy of your HAWP to Takoma Park Public Works, in order to be issued a tree removal permit.

The replacement agreement is enclosed, the terms of which require you to replant FIVE 1 ½ inch caliper category 3 Evergreen tree(s), or make a contribution of $875.00 to the City’s tree fund.

Please contact me at 301-891-7612 if you have any questions.

Sincerely,

Jan van Zutphen
Urban Forest Manager

Re: Urgent Tree Hazard at 24 Philadelphia Avenue

Dear Ms. Ludlow and Mr. van Zutphen:

Attached please find an urgent tree removal waiver application for two Leyland Cypress trees on my property at 24 Philadelphia Avenue, which are posing a clear hazard to people and property. This is my third application to the City for permission to remove these trees. They are overgrown, top heavy despite regular pruning by me (were never pruned after they were planted in 1985 by a prior owner of the house) and pose a danger to my house and my next-door neighbor’s house at 22 Philadelphia Ave.

I filed the first tree removal application after one of the same trees fell down during a blizzard during Snowmageddon in 2010-11, crushing my neighbor’s fence (there were originally 10 Leyland Cypress trees on the property; one fell down during the blizzard so the permit sought permission to remove the remaining 9 trees after that frightening and expensive incident). That permit application was denied by Todd Bolton, who was the City Arborist at the time, despite the fact that the trees are shallow-rooted and top-heavy and one had already fallen. I tried again last year, in 2017, after I received an opinion from Adirondack Tree Experts that the trees posed a hazard. This time, the permit was granted as to 6 of the trees, but denied for 3 others. I paid $1050 to the tree replacement fund and had the 6 trees removed shortly after I received the Historic Area Work Permit to go with the tree removal permit. But the 3 Leyland Cypresses as to which the permit was denied remained.

One of those remaining Leyland Cypress trees fell down during the windstorm of March 2, 2018, again crushing my neighbor’s fence and filling her entire yard with tree. We are extremely fortunate that no people, other property, or animals were hurt or damaged. I am terribly concerned that the remaining two trees (one of which is right in between our houses) pose an imminent hazard to our lives and property, and I therefore request a waiver to remove those trees as soon as possible.

I have also incurred a hefty tree removal bill of $1750 (attached), and my neighbors will incur a hefty fence replacement bill. I prefer not to file a claim with my insurance company because of the risk of rising premiums or being dropped from coverage, but I believe in any event that the responsibility for these new expenses lies with the City. I also question whether I should have been charged to pay the tree replacement fund with respect to the trees for which I did receive a permit, inasmuch as their hazardous nature should have been enough for a waiver. I therefore request that I be reimbursed for these expenses, and that my neighbor, Von Vaughn at 22 Philadelphia Ave., be reimbursed for the cost of repairing her smashed fence.
Thanks very much for your assistance with this matter. Please don’t hesitate to call me at 202-514-5377 (work) or 202-251-6180 (cell) or by email at Danajmart@aol.com. I will also drop off a hard copy of the tree waiver application with the $25 fee tomorrow morning at 31 Oswego Ave.

Sincerely yours,

[Signature]

Dana J. Martin

MEMORANDUM

TO: Diane Schwartz Jones
Department of Permitting Services

FROM: Dan Bruechert
Historic Preservation Section
Maryland-National Capital Park & Planning Commission

SUBJECT: Historic Area Work Permit #789101: Tree Removal

The Montgomery County Historic Preservation Commission (HPC) has reviewed the attached application for a Historic Area Work Permit (HAWP). This application was approved at the August 17, 2016 Historic Preservation Commission meeting, with staff item revisions approved at the March 8, 2017 HPC meeting.

The HPC staff has reviewed and stamped the attached tree removal drawings.

Applicant: Dana Martin
Address: 24 Philadelphia Ave., Takoma Park

This HAWP approval is subject to the general condition that the applicant will obtain all other applicable Montgomery County or local government agency permits. After the issuance of these permits, the applicant must contact this Historic Preservation Office if any changes to the approved plan are made. Once work is complete the applicant will contact Dan Bruechert at 301.563.3408 or dan.bruechert@montgomeryplanning.com to schedule a follow-up site visit.
