EXPEDITED
MONTGOMERY COUNTY HISTORIC PRESERVATION COMMISSION
STAFF REPORT

Address: 511 Albany Avenue  
Meeting Date: 7/25/2018

Resource: Non-Contributing Resource  
(Takoma Park Historic District)  
Report Date: 7/18/2018

Applicant: Cerinda Loschinkohl & Deborah Chalfie  
Public Notice: 7/11/2018

Tax Credit: Yes

Review: HAWP  
Staff: Rebeccah Ballo

Case Number: 37/03-18AAA

PROPOSAL: Roof replacement

STAFF RECOMMENDATION:

✓ Approve

☐ Approve with conditions

ARCHITECTURAL DESCRIPTION

SIGNIFICANCE: Non-Contributing Resource within the Takoma Park Historic District

STYLE: Ranch

DATE: c. 1940s-50s

PROPOSAL:

The applicant proposes to replace the existing three-tab asphalt shingle roof on the non-contributing ranch house with an architectural asphalt shingle roof, per the attached specifications. There is associated gutter, soffit, and fascia repair work that is shown in the images and specifications; however, this work is completely in-kind and does not require a HAWP.

APPLICABLE GUIDELINES:

Policy On Use of Expedited Staff Reports for Simple HAWP Cases

IV. The Expedited Staff Report format may be used on the following type of cases:

8. Replacement of roofs on non-contributing or out-of-period buildings, as well as new installation of historically appropriate roofing materials on outstanding and contributing buildings.

Montgomery County Code; Chapter 24A-8

(b) The commission shall instruct the director to issue a permit, or issue a permit subject to such conditions as are found to be necessary to insure conformity with the purposes and requirements of this chapter, if it finds that:
(1) The proposal will not substantially alter the exterior features of an historic site or historic resource within an historic district; or

(2) The proposal is compatible in character and nature with the historical, archeological, architectural or cultural features of the historic site or the historic district in which an historic resource is located and would not be detrimental thereto or to the achievement of the purposes of this chapter; or

(3) The proposal would enhance or aid in the protection, preservation and public or private utilization of the historic site or historic resource located within an historic district in a manner compatible with the historical, archeological, architectural or cultural value of the historic site or historic district in which an historic resource is located; or

(4) The proposal is necessary in order that unsafe conditions or health hazards be remedied; or

(5) The proposal is necessary in order that the owner of the subject property not be deprived of reasonable use of the property or suffer undue hardship; or

(6) In balancing the interests of the public in preserving the historic site or historic resource located within an historic district, with the interests of the public from the use and benefit of the alternative proposal, the general public welfare is better served by granting the permit.

(c) It is not the intent of this chapter to limit new construction, alteration or repairs to any period or architectural style.

(d) In the case of an application for work on an historic resource located within an historic district, the commission shall be lenient in its judgment of plans for structures of little historical or design significance or for plans involving new construction, unless such plans would seriously impair the historic or architectural value of surrounding historic resources or would impair the character of the historic district. (Ord. No. 9-4, § 1; Ord. No. 11-59.)

STAFF RECOMMENDATION:

Staff recommends that the Commission approve the HAWP application under the Criteria for Issuance in Chapter 24A-8(b), (1), (2) & (d) having found that the proposal is consistent with the Takoma Park Historic District Guidelines, and therefore will not substantially alter the exterior features of the historic resource and is compatible in character with the district and the purposes of Chapter 24A;

and with the Secretary of the Interior’s Standards for Rehabilitation;

and with the general condition that the applicant shall present the 3 permit sets of drawings, if applicable, to Historic Preservation Commission (HPC) staff for review and stamping prior to submission for the Montgomery County Department of Permitting Services (DPS) building permits;

and with the general condition that the applicant shall notify the Historic Preservation Staff if they propose to make any alterations to the approved plans;

and with the general condition that final project design details, not specifically delineated by the Commission, shall be approved by HPC staff or brought back to the Commission as a revised HAWP application at staff’s discretion.

Once the work is completed the applicant will contact the staff person assigned to this application at 301-563-3400 or michael.kyne@montgomeryplanning.org to schedule a follow-up site visit.

SEE REVERSE SIDE FOR INSTRUCTIONS
THE FOLLOWING ITEMS MUST BE COMPLETED AND THE
REQUIRED DOCUMENTS MUST ACCOMPANY THIS APPLICATION.

1. WRITTEN DESCRIPTION OF PROJECT
   a. Description of existing structure(s) and environmental setting, including their historical features and significance:
      The existing roof is drip-edge shingles more than 30 years old. The fascia on the back of the house was damaged when a neighbor tree fell on it in a recent wind storm. Due to the roofs\' age and condition, we decided to replace the shingles and gutters. When the roof is repaired, the gutters are also old and leaky and were damaged by the tree. The house is a non-contributing resource in the historic district.
   b. General description of project and its effect on the historic resource(s), the environmental setting, and, where applicable, the historic district:
      The existing roofing will be removed down to but not including the wood sheathing. Undamaged new asphalt shingles will be installed. Current gutters will be removed and replaced.
      See attached descriptions from contractor proposal.

2. SITE PLAN
   Site and environmental setting, drawn to scale. You may use your plan. Your site plan must include:
   a. the scale, north arrow, and date;
   b. dimensions of all existing and proposed structures; and
   c. site features such as walkways, driveways, fences, ponds, streams, trash dumpsters, mechanical equipment, and landscaping.

3. PLANS AND ELEVATIONS
   You must submit 2 copies of plans and elevations in a format no larger than 11\" x 17\". Plans on 8 1/2\" x 11\" paper are preferred.
   a. Schematic construction plans, with marked dimensions, indicating location, size and general type of walls, window and door openings, and other fixed features of both the existing resourceful and the proposed work.
   b. Elevations (facade), with marked dimensions, clearly indicating proposed work in relation to existing construction and, when appropriate, context. All materials and fixtures proposed for the exterior must be noted on the elevations drawings. An existing and a proposed elevation drawing of each facade affected by the proposed work is required.

4. MATERIALS SPECIFICATIONS
   General description of materials and manufactured items proposed for incorporation in the work of the project. This information may be included on your design drawings.

5. PHOTOGRAPHS
   a. Clearly labeled photographic prints of each facade of existing resource, including details of the affected portions. All labels should be placed on the front of photographs.
   b. Clearly label photographic prints of the resource as viewed from the public right-of-way and of the adjoining properties. All labels should be placed on the front of photographs.

6. TREE SURVEY
   If you are proposing construction adjacent to or within the dripline of any tree 8\" or larger in diameter (at approximately 4 feet above the ground), you must file an accurate tree survey identifying the size, location, and species of each tree of at least that dimension.

7. ADDRESSES OF ADJACENT AND CONFRONTING PROPERTY OWNERS
   For all projects, provide an accurate list of adjacent and confronting property owners (not tenants), including names, addresses, and zip codes. This list should include the owners of all lots or parcels which adjoin the parcel in question, as well as the owner(s) of lots or parcel(s) which lie directly across the street/highway from the parcel in question.

PLEASE PRINT (IN BLUE OR BLACK INK) OR TYPE THIS INFORMATION ON THE FOLLOWING PAGE.
PLEASE STAY WITHIN THE GUIDES OF THE TEMPLATE, AS THIS WILL BE PHOTOCOPIED DIRECTLY ONTO MAILING LABELS.
Remove existing roofing down to wood deck on main house
Inspect and re-nail any loose sheathing any bad wood will be replaced at an extra charge of $94 per 4' x 8' sheet.
Furnish and Install all new f-5 aluminum drip edge along entire perimeter of pitched roof areas. Color to be Black.
Furnish and Install Certain-Teed winter guard ice and water shield along all gutter edges and in all valleys.
Furnish and Install Certain-Teed Diamond Deck synthetic underlayment over entire roof deck.
Furnish and Install Certain-Teed Landmark lifetime guarantee shingles. Color to be ________________________.
Furnish and Install new Easy Sleeve lifetime guarantee vent pipe collars around all vent pipes.
Furnish and Install new Certain-Teed Air Vent ridge vent over all ridges and install matching Certain-Teed hip and ridge shingles over cap
Remove all existing gutters and downspouts
Furnish and Install new 6 inch seamless aluminum k-style gutters and 3" x 4" oversized downspouts color to be black
Furnish and Install new LeaFree gutter guards color to be black www.leafree.com
Remove approximately 16LF of fascia board.
Remove damaged tongue groove soffit.
Furnish and install new fascia where removed
Furnish and install 2 coats of Sherwin Williams high grade exterior paint.
Provide Certain-Teed 25-year Sure-Start Warranty.
Labor and Material is guaranteed for LIFE

Cleanup and Haul away all job debris

Materials carry a Manufacturer's warranty (state year warranty)

Work to start TBD and be substantially completed 15 days from signing contract

BUYER'S RIGHT TO CANCEL
If this agreement was solicited at or near your residence and you do not want the goods or services, you may cancel it by mailing a notice
To the seller. If you cancel, the seller may not keep any part of your cash down payment.
You must say, in the cancellation notice, that you do not want the goods or services and mail it before midnight of the 3rd business day
after you signed this contract to the address at the top of this form.

Total Amount $11,000.00
Deposit $3,000.00
Balance $8,000.00

Homeowner will pay balance as follows: Balance due upon completion

4% surcharge for all payments made via credit cards

Technical Data Sheet
Landmark® Premium Shingles
Landmark® PRO/Architect 80 Shingles (NW Region only)
Landmark® PRO Shingles
Landmark® Shingles

PRODUCT INFORMATION
Landmark shingles reflect the same high manufacturing standards and superior warranty protection as the rest of CertainTeed's line of roofing products. Landmark Premium (and Algae Resistant-AR), Landmark PRO (and AR) and Landmark (and AR) are built with the industry's toughest fiber glass mat base, and their strict dimensional tolerance assures consistency. Complex granule color blends and subtle shadow lines produce a distinctive color selection. Landmark is produced with the unique NailTrak® nailing feature. Please see the installation instruction section below for important information regarding NailTrak.

In the Northwest Region Landmark PRO (AR) is double-branded as Landmark PRO/Architect 80 (AR).

Landmark algae-resistant (AR) shingles have the additional attribute of resisting the growth of algae especially in damp regions. AR shingles are not available in all regions.

Colors: Please refer to the product brochure or CertainTeed website for the colors available in your region.

Limitations: Use on roofs with slopes greater than 2" per foot. Low-slope applications (2" to 4" per foot) require additional underlayment. In areas where icing along eaves can cause the back-up of water, apply CertainTeed WinterGuard® Waterproofing Shingle Underlayment, or its equivalent, according to application instructions provided with the product and on the shingle package.

Product Composition: Landmark Series shingles are composed of a fiber glass mat base. Ceramic-coated mineral granules are tightly embedded in carefully refined, water-resistant asphalt. Two pieces of the shingle are firmly laminated together in a special, tough asphaltic cement. All Landmark shingles have self-sealing adhesive strips.
