PRELIMINARY CONSULTATION
MONTGOMERY COUNTY HISTORIC PRESERVATION COMMISSION
STAFF REPORT

Address: 3100 Brimstone Academy Dr., Olney
Meeting Date: 6/12/2019

Resource: Master Plan Site #23/97
Report Date: 6/5/2019

Rockland

Applicant: Gary H. and Aimee A. Weiss
Public Notice: 5/29/2019

Review: Preliminary Consultation
Staff: Dan Bruechert

Proposal: Building Addition

RECOMMENDATION
Staff recommends the applicant make any modifications recommended by the HPC and return for a HAWP.

ARCHITECTURAL DESCRIPTION

SIGNIFICANCE: Individually Listed Master Plan Site #23/97 (Rockland)
STYLE: 1838 w/ 1850 alterations

DATE:

From Places from the Past:
“Rockland was the residence of Benjamin Hallowell, influential Quaker educator and agriculturalist. Hallowell was a founder of Swarthmore College, was first president and a founder of the college that became the Agricultural College of the University of Maryland, and established Brimstone Academy in Alexandria, Virginia. The main five-bay block with center passage was likely built around 1838, incorporating an earlier log structure. A significant interior feature is an elliptical arch between the two east rooms. The house was expanded about 1850 with dual service wings to create a large formal double residence. The west wing had been removed by c.1900 and was rebuilt in the late 1980s.”
PROPOSAL

The applicant proposes to construct a two-story addition in the northwest corner of the house.

APPLICABLE GUIDELINES

Proposed alterations to individual Master Plan Sites are reviewed under Montgomery County Code Chapter 24A (Chapter 24A) and the Secretary of the Interior’s Standards for Rehabilitation. Rehabilitation is defined as the act or process of making possible a compatible use for a property through repair, alterations, and additions while preserving those portions or features, which convey its historical, cultural, or architectural values.

Montgomery County Code, Chapter 24A Historic Resources Preservation
(b) The commission shall instruct the director to issue a permit, or issue a permit subject to such conditions as are found to be necessary to insure conformity with the purposes and requirements of this chapter, if it finds that:
   (1) The proposal will not substantially alter the exterior features of an historic site or historic resource within an historic district; or
   (2) The proposal is compatible in character and nature with the historical, archeological, architectural or cultural features of the historic site or the historic district in which an historic resource is located and would not be detrimental thereto or to the
achievement of the purposes of this chapter;

**Secretary of the Interior’s Standards for Rehabilitation**

1. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, space and spatial relationships that characterize a property will be avoided.
2. Distinctive materials, features, finishes and construction techniques or examples of craftsmanship that characterize a property will be preserved.
3. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportions, and massing to protect the integrity of the property and its environment.
4. New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

**STAFF DISCUSSION**

The applicant proposes constructing a two-story addition, measuring 21’ × 16’ (twenty-one by sixteen feet) in the northwest corner of the house. The western (left side) wall will be co-planer with the existing wall plane. The roof of the addition will introduce a new rear-facing gable. The application indicates that the finishes of the addition will match the historic house including painted cedar clapboards, a stone foundation and cedar shake roof. The windows proposed for the north (rear) elevation will be removed from the house and re-located.

On the west (side) of the new construction the applicant proposes to construct a wood side porch with round columns, a hipped cedar shake roof, and a pair of French doors.

Staff finds that a building addition in this location is acceptable. It is in the rear of the building connecting to a c.1980s addition. Staff further finds that the materials identified are compatible with the historic house.

Typically, additions are required to be inset from the existing construction to differentiate the phases of construction. The proposed west elevation would be co-planer with an uninterrupted wall plane. Because the existing wing is a c.1980s construction, Staff could reasonably support a co-planer addition. However, the outline of the existing construction should be maintained through the use of trim pieces so that the corner of the wing is expressed. An alternative design solution would be to inset the wall of the addition from the existing wall. Staff request guidance from the HPC on the appropriateness of the co-planer addition and exterior wall treatment.

Staff finds that the proposal to construct a new porch on the west elevation is also appropriate. The hipped roof, wood railing and lattice are all drawn from the existing front porch. The front porch appears to be 1980s construction. Staff finds the proportions of the side porch to be out of character with the historic house and recommends that the porch either be widened along the west
elevation or reduced and simplified in form. Staff request the HPC provide feedback regarding the proposed side porch configuration and make recommendations for the HAWP application.

**STAFF RECOMMENDATION**

Staff recommends the applicant make any modifications recommended by the HPC and return for a HAWP.

SEE REVERSE SIDE FOR INSTRUCTIONS
THE FOLLOWING ITEMS MUST BE COMPLETED AND THE REQUIRED DOCUMENTS MUST ACCOMPANY THIS APPLICATION.

1. WRITTEN DESCRIPTION OF PROJECT
   a. Description of existing structure(s) and environmental setting, including their historical features and significance:
      2 STORY SINGLE FAMILY HOME
      PAINTED CEDAR SIDING
      STONE TO GRADE CEDAR SHINGLES
   
   b. General description of project and its effect on the historic resource(s), the environmental setting, and, where applicable, the historic district:
      2 STORY 21' X 16' ADDITION ON CRAWL SPACE
      ALL EXTERIOR FINISHES TO MATCH EXISTING

2. SITE PLAN
   Site and environmental setting, drawn to scale. You may use your plat. Your site plan must include:
   a. the scale, north arrow, and date;
   b. dimensions of all existing and proposed structures; and
   c. site features such as walkways, driveways, fences, ponds, streams, trash dumpsters, mechanical equipment, and landscaping.

3. PLANS AND ELEVATIONS
   You must submit 2 copies of plans and elevations in a format no larger than 11" x 17". Plans on 8 1/2" x 11" paper are preferred.
   a. Schematic construction plans, with marked dimensions, indicating location, size and general type of walls, window and door openings, and other fixed features of both the existing resource(s) and the proposed work.
   b. Elevations (facades), with marked dimensions, clearly indicating proposed work in relation to existing construction and, when appropriate, context. All materials and fixtures proposed for the exterior must be noted on the elevations drawings. An existing and a proposed elevation drawing of each facade affected by the proposed work is required.

4. MATERIALS SPECIFICATIONS
   General description of materials and manufactured items proposed for incorporation in the work of the project. This information may be included on your design drawings.

5. PHOTOGRAPHS
   a. Clearly labeled photographic prints of each facade of existing resource, including details of the affected portions. All labels should be placed on the front of photographs.
   b. Clearly label photographic prints of the resource as viewed from the public right-of-way and of the adjoining properties. All labels should be placed on the front of photographs.

6. TREE SURVEY
   If you are proposing construction adjacent to or within the dripline of any tree 6" or larger in diameter (at approximately 4 feet above the ground), you must file an accurate tree survey identifying the size, location, and species of each tree of at least that dimension.

7. ADDRESSES OF ADJACENT AND CONFRONTING PROPERTY OWNERS
   For all projects, provide an accurate list of adjacent and confronting property owners (not tenants), including names, addresses, and zip codes. This list should include the owners of all lots or parcels which adjoin the parcel in question, as well as the owner(s) of lot(s) or parcel(s) which lie directly across the street/highway from the parcel in question.

PLEASE PRINT IN BLUE OR BLACK INK OR TYPE THIS INFORMATION ON THE FOLLOWING PAGE. PLEASE STAY WITHIN THE GUIDES OF THE TEMPLATE, AS THIS WILL BE PHOTOCOPIED DIRECTLY ONTO MAILING LABELS.
