Resolution No. 9-1911

Introduced: July 6, 1982
Adopted: July 6, 1982

COUNTY COUNCIL FOR MONTGOMERY COUNTY, MARYLAND
SITTING AS A DISTRICT COUNCIL FOR THAT PORTION
OF THE MARYLAND-WASHINGTON REGIONAL DISTRICT
WITHIN MONTGOMERY COUNTY, MARYLAND

By: District Council

SUBJECT: Final Draft Sector Plan for Capitol View and Vicinity

WHEREAS, on March 12, 1982, the Maryland-National Capital Park and Planning Commission transmitted the Final Draft Sector Plan for Capitol View and Vicinity to the Montgomery County Council; and

WHEREAS, the Montgomery County Council held a public hearing on June 3, 1982, wherein oral and written testimony was received concerning the Final Draft Sector Plan; and

WHEREAS, the Montgomery County Council conducted a worksession on June 23, 1982, at which time detailed consideration was given to the public hearing testimony and the comments and concerns of interested parties attending the worksessions discussions.

NOW, THEREFORE, BE IT RESOLVED by the County Council for Montgomery County, Maryland, sitting as a District Council for that portion of the Maryland-Washington Regional District within Montgomery County, that -

The Final Draft Sector Plan for Capitol View and Vicinity is hereby approved as amended:

1. Revise Capitol View Historic District Boundary, as shown on Page 63 of the Final Draft Sector Plan, to include the area south of Beechbank Road, other than the Milton Property, as delineated on the 1887
subdivision plan of Capitol View Park. The text of the Final Draft Sector Plan should be revised, as necessary, to reflect this action of the County.

2. Amend Paragraph 7, Page 46, as follows:

Montgomery County maintenance of Barker Avenue should be extended between Meno and Warner Avenues, to the access driveway of the Sylvan Manor Nursing Home. The public maintenance of this segment of Barker Avenue is desirable to insure access by emergency vehicles for the safety of residents of the nursing home. If this action can only be accomplished by an amendment to the County road code, then the Sector Plan recommends that such an amendment be enacted by the County Council.

consistent with their protection, an historic area work permit is required. This permit system is administered by the Historic Preservation Commission. An applicant for an historic area work permit must demonstrate that the permit should be issued. In granting the permit, the Commission may include provisions to ensure that the work done is consistent with the historic or cultural value of the historic resource. Historic area work permits may be required for new construction, alteration or repairs, and would not be limited to any one period or architectural style. Historic area work permits are required for public as well as private development, using design review guidelines prepared by the Planning Board. If there is a conflict between the Building Code and the work permit, the latter would prevail, so long as basic health and safety requirements of the building codes are met.

Before an historic resource which is not on the Master Plan for Historic Preservation can be demolished or substantially altered, the resource must be reviewed by the Planning Board after receiving the recommendation of the Commission. If the Planning Board finds that the resource should be placed on the Master Plan, then it will initiate a Master Plan Amendment. The demolition permit would then be withheld for 6 months, or until the Council acts on the Amendment. If the Council does not adopt the Amendment, the demolition permit would be issued. If it is adopted, a work permit would be required.

When the Commission finds that the exterior architectural features of an Historic Site, or an historic resource within an Historic District listed on the Master Plan become deteriorated to a point which imperils their preservation as the result of "willful neglect, purpose or design," the Director of Environmental Protection may be directed to issue a written notice to the property owner about the conditions of deterioration. The owner may request a public appearance before the Commission on the necessity of repair of the structure. If, after the hearing, the Commission finds that the improvements are necessary, a Final Notice is issued, and if corrective action is not undertaken within a prescribed time, the Director of the Department of Environmental Protection may have the necessary remedial work completed and hold the expenses incurred as a lien on the property.

PROPOSED HISTORIC DISTRICT

The proposed Capitol View Park Historic District in its entirety meets the following criteria:

1, a: has character, interest, or value as part of the development, heritage, or cultural characteristics of the County, State or Nation;
1, d: exemplifies the cultural, economic, social, political or historic heritage of the County and its communities;

2, d: represents a significant and distinguishable entity whose components may lack individual distinction;

2, e: represents an established and familiar visual feature of the County due to its singular physical characteristic or landscape.

The district also meets the following conditions set forth in Section V-B of the Guidelines for Historic Districts:

1. Associative (Railroad community)
2. Location (Contiguous grouping)
3. Design (Architecturally representative)

The significance of Capitol View Park to the County's heritage is as an example of a railroad community which developed gradually over the past 100 years. The community's origin is representative of a number of railroad suburbs which developed following the opening of the Metropolitan Branch of the B & O. After its genesis, Capitol View Park developed so as to exhibit most building styles "typical" in the development of suburban Montgomery County. Most Capitol View Park structures possess little distinction as architectural entities. When grouped, however, these resources meet the criteria for district designation as a visual example of suburban development styles. This emphasis on the contiguous visual architectural contribution of the district is the basis for the boundary as delineated on Map 21. The geographic contiguity and architectural cohesiveness of the resources as provided by the recommended boundary presents a sound basis for the regulation and preservation of properties significant to the districts contribution to the County.

Within the district, the resources can be grouped into four categories, each of which contributes to the district:

1. 1870-1916: Characterized by large lots and variety of setbacks, and architecturally encompassing the "Victorian" residential and revival styles and the early bungalow style popular during this period, these twenty-two houses are of a higher degree of architectural and historical significance than the other structures within the district.
2. 1917-1935: Characterized by small lots, regularity of set backs, and predominantly of the bungalow style, these twenty-three houses are of a lesser architectural significance, but taken as a whole do contribute to the historic character of the district.

3. Nominal (1936-1981): These houses of themselves are of no architectural of historical significance, but through their contiguity to the significant resources have some interest to the historic district.

4. Spatial: Spatial resources are unimproved parcels of land which visually and aesthetically contribute to the setting of the historic district, and which can be regarded as extensions of the environmental settings of the significant historic resources.
