☐ Approve with conditions

ARCHITECTURAL DESCRIPTION:

SIGNIFICANCE: Contributing Resource within the Takoma Park Historic District
STYLE: Craftsman
DATE: c.1924

Fig. 1: 7714 Takoma Ave. with an arrow pointing toward the non-historic accessory structure.
BACKGROUND

The HPC approved a HAWP for a building addition at the April 25, 2018 HPC meeting.¹

PROPOSAL

The applicant proposes to demolish the existing non-historic accessory structure. The shed appears to be pre-fab construction and is covered in T1-11 siding and installed on a concrete slab. The applicant then proposes to install bluestone pavers on top of the existing slab to create a new patio.

Staff finds the proposal appropriate for several reasons. The existing accessory structure is not historic, therefore it’s removal will not impact the historic character of the property or surrounding district. Covering the concrete slab with bluestone will not alter the visual character of the property and, as this will be occurring at-grade, will not be visible from the public right-of-way. Staff finds the proposal is compatible with the Design Guidelines, Chapter 24A, and the Standards.

APPLICABLE GUIDELINES:

Policy On Use of Expedited Staff Reports for Simple HAWP Cases

IV. The Expedited Staff Report format may be used on the following type of cases:
   2. Modifications to a property, which do not significantly alter its visual character.
   4. Removal of accessory building that are not original to the site or otherwise historically significant.
   11. Construction or replacement of walkways, parking areas, patios, driveways or other paved areas that are not readily visible from a public right-of-way and/or are compatible in material, location, and design with the visual character of the historic site or district.

Montgomery County Code; Chapter 24A-8

(b) The commission shall instruct the director to issue a permit, or issue a permit subject to such conditions as are found to be necessary to ensure conformity with the purposes and requirements of this chapter, if it finds that:
   (1) The proposal will not substantially alter the exterior features of an historic site or historic resource within an historic district; or
   (2) The proposal is compatible in character and nature with the historical, archeological, architectural or cultural features of the historic site or the historic district in which an historic resource is located and would not be detrimental thereto or to the achievement of the purposes of this chapter; or

(d) In the case of an application for work on an historic resource located within an historic district, the commission shall be lenient in its judgment of plans for structures of little historical or design significance or for plans involving new construction, unless such plans would seriously impair the historic or architectural value of surrounding historic resources or would impair the character of the historic district. (Ord. No. 9-4, § 1; Ord. No. 11-59)

¹ The Staff Report for the previous HAWP can be found here: https://montgomeryplanning.org/wp-content/uploads/2018/04/I.A-7714-Takoma-Avenue-Takoma-Park.pdf. There is no available audio for this hearing.
Secretary of Interior’s Standards for Rehabilitation

The Secretary of the Interior defines rehabilitation as “the act or process of making possible a compatible use for a property through repair, alterations, and additions while preserving those portions or features, which convey its historical, cultural, or architectural values.” The relevant Standards are as follows:

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

STAFF RECOMMENDATION:

Staff recommends that the Commission approve the HAWP application under the Criteria for Issuance in Chapter 24A-8(b)(1) and (2), and (d), having found that the proposal is consistent with the Takoma Park Historic District Guidelines, and therefore will not substantially alter the exterior features of the historic resource and is compatible in character with the district and the purposes of Chapter 24A;

and with the Secretary of the Interior’s Standards for Rehabilitation #2 and 9;

and with the general condition that the applicant shall present the 3 permit sets of drawings, if applicable, to Historic Preservation Commission (HPC) staff for review and stamping prior to submission for the Montgomery County Department of Permitting Services (DPS) building permits;

and with the general condition that final project design details, not specifically delineated by the Commission, shall be approved by HPC staff or brought back to the Commission as a revised HAWP application at staff’s discretion;

and with the general condition that the applicant shall notify the Historic Preservation Staff if they propose to make any alterations to the approved plans. Once the work is completed the applicant will contact the staff person assigned to this application at 301-563-3400 or dan.bruechert@montgomeryplanning.org to schedule a follow-up site visit.
# Application for Historic Area Work Permit

**Contact Person:** Rebecca Leal  
**Contact Email:** Permits@mechanicurbarassociates.com  
**Daytime Phone No.:** 301.229.7000

**Tax Account No.:** 13-010544-01

**Date Issued:**

**See Reverse Side for Instructions**

---

**Permit Number:** 825 266
THE FOLLOWING ITEMS MUST BE COMPLETED AND THE REQUIRED DOCUMENTS MUST ACCOMPANY THIS APPLICATION.

1. WRITTEN DESCRIPTION OF PROJECT
   a. Description of existing structure(s) and environmental setting, including their historical features and significance:

   We are trying to match the style & proportion of the building. We will be replacing windows. New additions will be compatible with different materials than the back.
   The addition to the house includes a new family room with two access decks, the renovation of a previous addition (bedroom) on the first floor, and a new small addition on the second floor (WIC).

   b. General description of project and its effect on the historic resource(s), the environmental setting, and, where applicable, the historic district:

   In the historic district, we are matching the slope & scale of the existing porch and other volumes of the house. Because the house is seen from multiple angles, we decided there are no facades usually compatible with older house in the historic district.

2. SITE PLAN
   Site and environmental setting, drawn to scale. You may use your plot. Your site plan must include:
   a. the scale, north arrow, and data;
   b. dimensions of all existing and proposed structures; and
   c. site features such as walkways, driveways, fences, ponds, streams, trash dumpsters, mechanical equipment, and landscaping.

3. PLAN AND ELEVATIONS
   You must submit 2 copies of plans and elevations in a format no larger than 11" x 17". Plans on 8 1/2" x 11" paper are preferred.
   a. Schematic construction plans, with marked dimensions, indicating location, size and general type of walls, window and door openings, and other fixed features of both the existing resource(s) and the proposed work.
   b. Elevations (facade), with marked dimensions, clearly indicating proposed work in relation to existing construction and, when appropriate, contrast. All materials and fixtures proposed for the exterior must be noted on the elevations. A clearly defined elevation drawing of each facade affected by the proposed work is required.

4. MATERIALS SPECIFICATIONS
   General description of materials and manufactured items proposed for incorporation in the work of the project. This information may be included on your design drawings.

5. PHOTOGRAPHS
   a. Clearly labaled photographic prints of each facade of existing resource, including details of the affected portions. All labels should be placed on the front of photographs.
   b. Clearly label photographic prints of the resource as viewed from the public right-of-way and of the adjoining properties. All labels should be placed on the front of photographs.

6. TREE SURVEY
   If you are proposing construction adjacent to or within the drip line of any tree 6" or larger in diameter (at approximately 4 feet above the ground), you must file an accurate tree survey identifying the size, location, and species of each tree of at least that dimension.

7. ADDRESSES OF ADJACENT AND CONFRONTING PROPERTY OWNERS
   For all projects, provide an accurate list of adjacent and confronting property owners (not tenants), including names, addresses, and zip codes. This list should include the owners of all lots or parcels which abut the parcel in question, as well as the owner(s) of lot(s) or parcel(s) which lie directly across the street/way from the parcel in question.

PLEASE PRINT (IN BLUE OR BLACK INK) OR TYPE THIS INFORMATION ON THE FOLLOWING PAGE.
PLEASE STAY WITHIN THE GUIDES OF THE TEMPLATE, AS THIS WILL BE PHOTOCOPIED DIRECTLY ONTO MAILING LABELS.

Addendum to HAWP# 825266

Contact: Pavan Auluck
auluck@gmail.com
6916 Willow St. NW
Washington, DC 20012

Property Address: 7714 Takoma Avenue
Takoma Park, MD 20912
Lot: P13 Block: 69

Description of Addendum:
This addendum concerns an accessory structure (shed) located to the south and west of the primary building. The shed is visible only from Takoma Avenue. The accessory structure is not original to the property is of a style that contrasts with primary Craftsman building. The shed is of basic design with no unique architecture details.

General description of the project addendum:
We propose to raze the accessory structure (shed). We will retain the concrete foundation for use as a patio. This will minimize the environmental impact. We propose to cover the patio with stone pavers. The removal of the non-historic shed will improve the appearance of the property from the street (Takoma Ave.).

Attachments:
1. Site plan
2. Photographs of the accessory shed as visible from Takoma Ave. and closer views.
View of the accessory shed structure from the sidewalk along Takoma Ave at driveway.
