EXPEDITED
MONTGOMERY COUNTY HISTORIC PRESERVATION COMMISSION
STAFF REPORT

Address: 5605 York Ln., Bethesda  
Meeting Date: 5/27/2020

Resource: Contributing Resource  
(Greenwich Forest Historic District)  
Report Date: 5/20/2010

Applicant: Kathryn Becker Revocable Trust  
(David Schindel, Architect)  
Public Notice: 5/13/2020

Review: HAWP  
Tax Credit: Partial

Case Number: 35/165-20D  
Staff: Michael Kyne

PROPOSAL: Wall dormer roof replacement and other alterations

STAFF RECOMMENDATION:

☑ Approve  
☐ Approve with conditions

ARCHITECTURAL DESCRIPTION:

SIGNIFICANCE: Contributing Resource within the Greenwich Forest Historic District
STYLE: Colonial Revival
DATE: 1938

Fig. 1: Subject property, as marked by the blue star.
PROPOSAL:

The applicants propose to replace the existing slate roofing on an existing wall dormer in the northeast (rear/right) corner of the house with standing seam copper roofing. Existing copper flashing will also be repaired or replaced as necessary. The wall dormer is currently clad with vinyl siding. The vinyl siding will be removed from the wall dormer, and the original wood ship-lap siding underneath will be restored.

APPLICABLE GUIDELINES:

Policy On Use of Expedited Staff Reports for Simple HAWP Cases

IV. The Expedited Staff Report format may be used on the following type of cases:

8. Replacement of roofs on non-contributing or out-of-period building, as well as new installation of historically appropriate roofing materials on outstanding and contributing buildings.

Montgomery County Code; Chapter 24A-8

(b) The commission shall instruct the director to issue a permit, or issue a permit subject to such conditions as are found to be necessary to ensure conformity with the purposes and requirements of this chapter, if it finds that:

(1) The proposal will not substantially alter the exterior features of an historic site or historic resource within an historic district; or

(2) The proposal is compatible in character and nature with the historical, archeological, architectural or cultural features of the historic site or the historic district in which an historic resource is located and would not be detrimental thereto or to the achievement of the purposes of this chapter; or

(3) The proposal would enhance or aid in the protection, preservation and public or private utilization of the historic site or historic resource located within an historic district in a manner compatible with the historical, archeological, architectural or cultural value of the historic site or historic district in which an historic resource is located; or

(4) The proposal is necessary in order that unsafe conditions or health hazards be remedied; or

(5) The proposal is necessary in order that the owner of the subject property not be deprived of reasonable use of the property or suffer undue hardship; or

(6) In balancing the interests of the public in preserving the historic site or historic resource located within an historic district, with the interests of the public from the use and benefit of the alternative proposal, the general public welfare is better served by granting the permit.

(c) It is not the intent of this chapter to limit new construction, alteration or repairs to any 1 period or architectural style.

(d) In the case of an application for work on an historic resource located within an historic district, the commission shall be lenient in its judgment of plans for structures of little historical or design significance or for plans involving new construction, unless such plans would seriously impair the historic or architectural value of surrounding historic resources or would impair the character of the historic district. (Ord.No.9-4, § 1; Ord.No.11-59)

Secretary of Interior’s Standards for Rehabilitation

The Secretary of the Interior defines rehabilitation as “the act or process of making possible a compatible use for a property through repair, alterations, and additions while preserving those portions or features, which convey its historical, cultural, or architectural values.” The Standards are as follows:
I.

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

STAFF RECOMMENDATION:

Staff recommends that the Commission approve the HAWP application under the Criteria for Issuance in Chapter 24A-8(b), (1), (2) & (d) having found that the proposal will not substantially alter the exterior features of the historic resource and is compatible in character with the district and the purposes of Chapter 24A;

and with the Secretary of the Interior’s Standards for Rehabilitation #2 and 9;

and with the general condition that the applicant shall present the 3 permit sets of drawings, if applicable, to Historic Preservation Commission (HPC) staff for review and stamping prior to submission for the Montgomery County Department of Permitting Services (DPS) building permits;

and with the general condition that final project design details, not specifically delineated by the Commission, shall be approved by HPC staff or brought back to the Commission as a revised HAWP application at staff’s discretion;

and with the general condition that the applicant shall notify the Historic Preservation Staff if they propose to make any alterations to the approved plans. Once the work is completed the applicant will contact the staff person assigned to this application at 301-563-3400 or michael.kyne@montgomeryplanning.org to schedule a follow-up site visit.

PART ONE: TYPE OF PERMIT ACTION AND USE

1A. CHECK ALL APPLICABLE:

☐ Construct ☐ Alter/Renovate
☐ Move ☐ Wreck/Raze
☐ Revision ☐ Repair
☐ Other: Replacement of slate roof section

1B. Construction cost estimate: $10,000

1C. If this is a revision of a previously approved active permit, see Permit #: No

PART TWO: COMPLETE FOR NEW CONSTRUCTION AND EXTEND/ADDITIONS

2A. Type of sewage disposal: 01 X WSSC 02 ☐ Septic 03 ☐ Other:

2B. Type of water supply: 01 X WSSC 02 ☐ Well 03 ☐ Other:

PART THREE: COMPLETE ONLY ON FENCE/RETAINING WALL

3A. Height_________ feet ___________ inches

3B. Indicate whether the fence or retaining wall is to be constructed on one of the following locations:

☐ On property line/property line ☐ Entirely on land of owner ☐ On public right of way/easement

I hereby certify that I have the authority to make the foregoing application, that the application is correct, and that the construction will comply with plans approved by all agencies listed and I hereby acknowledge and accept this to be a condition for the issuance of this permit.

Page 4
THE FOLLOWING ITEMS MUST BE COMPLETED AND THE REQUIRED DOCUMENTS MUST ACCOMPANY THIS APPLICATION.

1. WRITTEN DESCRIPTION OF PROJECT
   a. Description of existing structure(s) and environmental setting, including their historical features and significance:
      Please see attached project description

   b. General description of project and its effect on the historic resource(s), the environmental setting, and, where applicable, the historic district:
      Please see attached project description

2. SITE PLAN
   Site and environmental setting, drawn to scale. You may use your plat. Your site plan must include:
   a. the scale, north arrow, and date;
   b. dimensions of all existing and proposed structures; and
   c. site features such as walkways, driveways, fences, ponds, streams, trash dumpsters, mechanical equipment, and landscaping.

3. PLANS AND ELEVATIONS
   You must submit 2 copies of plans and elevations in a format no larger than 11” x 17”. Plans on 8 1/2” x 11” paper are preferred.
   a. Schematic construction plans, with marked dimensions, indicating location, size and general type of walls, window and door openings, and other fixed features of both the existing structure(s) and the proposed work.
   b. Elevations (facades), with marked dimensions, clearly indicating proposed work in relation to existing construction and, when appropriate, context. All materials and fixtures proposed for the exterior must be noted on the elevations drawings. An existing and a proposed elevation drawing of each facade affected by the proposed work is required.

4. MATERIALS SPECIFICATIONS
   General description of materials and manufactured items proposed for incorporation in the work of the project. This information may be included on your design drawings.

5. PHOTOGRAPHS
   a. Clearly labeled photographic prints of each facade of existing resource, including details of the affected portions. All labels should be placed on the front of photographs.
   b. Clearly label photographic prints of the resource as viewed from the public right-of-way and of the adjoining properties. All labels should be placed on the front of photographs.

6. TREE SURVEY
   If you are proposing construction adjacent to or within the drip line of any tree 6” or larger in diameter (at approximately 4 feet above the ground), you must file an accurate tree survey identifying the size, location, and species of each tree of at least that dimension.

7. ADDRESSES OF ADJACENT AND CONFRONTING PROPERTY OWNERS
   For ALL projects, provide an accurate list of adjacent and confronting property owners (not tenants), including names, addresses, and zip codes. This list should include the owners of all lots or parcels which adjoin the parcel in question, as well as the owner(s) of lot(s) or parcel(s) which lie directly across the street/highway from the parcel in question.

PLEASE PRINT (IN BLUE OR BLACK INK) OR TYPE THIS INFORMATION ON THE FOLLOWING PAGE.
PLEASE STAY WITHIN THE GUIDES OF THE TEMPLATE, AS THIS WILL BE PHOTOCOPIED DIRECTLY ONTO MAILING LABELS.

Project Description: Becker-Schindel Porches

1a. Description of existing structure(s) and environmental setting.

This application is for work on 5605 York Lane, a contributing property in the Greenwich Forest Historic District in Bethesda, MD. The home is a three story center hall Colonial that was built in 1938 (see Figure 1). It is a corner lot with nearly continuous high canopy forest cover. It was the model home for the Pennsylvania farmhouse design in Morris Cafritz’s Greenwich Forest development. The rear-facing garage was converted into a kitchen in 1993-4. Since establishment of the historic district in 2011, the following HAWPs have been approved: installation of a shed dormer window in the rear-facing second floor family room in 2016 (HAWP Case # 35/165-16A); renovation of the front and side porches, and conversion of a screened porch into a sunroom/study in 2019 (HAWP Case #35/165-19C); and construction of a three-season porch addition in 2020 (HAWP Case #35/165-19F); and installation of a garden retaining wall and related hardscape in 2020 (HAWP Case #35/165-20A).

![Figure 1. 5605 York Lane, Bethesda, MD 20814](image)

1b. General description of the project and its effect on the historic resource(s).

1. Replacement of a section of slate roof shingles with standing seam copper. (see Figure 2) Three large sections of roof converge above a small side porch. Managing rainwater runoff and maintaining these roofs, gutters and downspouts has been an ongoing challenge.

![Figure 2. Converging roof sections above side porch](image)
The second floor bedroom above the side porch has a shed dormer and there has been recurring water damage to the ceiling of this dormer (see Figure 3).

![Figure 3. Water damage below low-sloping shed dormer roof](image)

Owners propose to:
- Remove existing slate from the low-sloping shed dormer (approximately 6’ X 10’);
- Remove vinyl siding that covers original wood ship-lap siding;
- Repair or replace copper flashing as necessary;
- Prepare and paint original ship-lap siding;
- Install new high temperature ice and water guard membrane on shed dormer; and
- Install new standing seam copper roof on shed dormer.

The shed dormer roof faces the rear of the property and is not visible from the public right-of-way. Its low slope and position on the second floor make it very difficult to see.

The house now has slate shingles on steep roof sections and copper on several low-sloping roof sections. The original house has slate shingle roofing except for the dining room bay window. Standing seam copper roofing has been installed on the low-sloping rooves of the recently constructed shed dormer in the second floor den and the first floor sunroom/study. A flat copper roof was installed on the recently added porch.

The replacement of this small section of slate shingles with standing seam copper will have no impact on the historic significance of this property.
