EXPEDITED
MONTGOMERY COUNTY HISTORIC PRESERVATION COMMISSION
STAFF REPORT

Address: 8012 Hampden Lane, Bethesda  
Meeting Date: 6/24/2020
Resource: Contributing Resource (Greenwich Forest Historic District)  
Report Date: 6/17/2020
Applicant: Gordon Franken and Amy Levine  
Public Notice: 6/10/2020
Review: HAWP  
Staff: Michael Kyne
Case Number: 35/165-20D  
Tax Credit: N/A

PROPOSAL: Accessory structure construction

STAFF RECOMMENDATION:

☑ Approve
☐ Approve with conditions

ARCHITECTURAL DESCRIPTION:

SIGNIFICANCE: Contributing Resource within the Greenwich Forest Historic District
STYLE: Tudor Revival
DATE: 1938

![Map](image)

Fig. 1: Subject property, as indicated by the yellow star.
PROPOSAL:

The applicants propose to install a 8’ x 16’ wooden storage shed with asphalt shingles at the rear of the subject property.

APPLICABLE GUIDELINES:

IV. The Expedited Staff Report format may be used on the following type of cases:

14. Construction or replacement of storage and small accessory buildings that are not readily visible from a public right-of-way.

Montgomery County Code; Chapter 24A-8

(b) The commission shall instruct the director to issue a permit, or issue a permit subject to such conditions as are found to be necessary to ensure conformity with the purposes and requirements of this chapter, if it finds that:

(1) The proposal will not substantially alter the exterior features of an historic site or historic resource within an historic district; or

(2) The proposal is compatible in character and nature with the historical, archeological, architectural or cultural features of the historic site or the historic district in which an historic resource is located and would not be detrimental thereto or to the achievement of the purposes of this chapter; or

(3) The proposal would enhance or aid in the protection, preservation and public or private utilization of the historic site or historic resource located within an historic district in a manner compatible with the historical, archeological, architectural or cultural value of the historic site or historic district in which an historic resource is located; or

(4) The proposal is necessary in order that unsafe conditions or health hazards be remedied; or

(5) The proposal is necessary in order that the owner of the subject property not be deprived of reasonable use of the property or suffer undue hardship; or

(6) In balancing the interests of the public in preserving the historic site or historic resource located within an historic district, with the interests of the public from the use and benefit of the alternative proposal, the general public welfare is better served by granting the permit.

(c) It is not the intent of this chapter to limit new construction, alteration or repairs to any 1 period or architectural style.

(d) In the case of an application for work on an historic resource located within an historic district, the commission shall be lenient in its judgment of plans for structures of little historical or design significance or for plans involving new construction, unless such plans would seriously impair the historic or architectural value of surrounding historic resources or would impair the character of the historic district. (Ord. No. 9-4, § 1; Ord. No. 11-59)

Secretary of Interior’s Standards for Rehabilitation

The Secretary of the Interior defines rehabilitation as “the act or process of making possible a compatible use for a property through repair, alterations, and additions while preserving those portions or features, which convey its historical, cultural, or architectural values.” The Standards are as follows:

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and its environment.

**STAFF RECOMMENDATION:**

Staff recommends that the Commission approve the HAWP application under the Criteria for Issuance in Chapter 24A-8(b), (1), (2) & (d) having found that the proposal is consistent with the *Greenwich Forest Historic District Guidelines*, and therefore will not substantially alter the exterior features of the historic resource and is compatible in character with the district and the purposes of Chapter 24A;

and with the *Secretary of the Interior’s Standards for Rehabilitation #2 and #9*;

and with the general condition that the applicant shall present the **3 permit sets of drawings, if applicable to Historic Preservation Commission (HPC) staff for review and stamping** prior to submission for the Montgomery County Department of Permitting Services (DPS) building permits;

and with the general condition that final project design details, not specifically delineated by the Commission, shall be approved by HPC staff or brought back to the Commission as a revised HAWP application at staff’s discretion;

and with the general condition that the applicant shall notify the Historic Preservation Staff if they propose to make **any alterations** to the approved plans.

Once the work is completed the applicant will **contact the staff person** assigned to this application at 301-563-3400 or michael.kyne@montgomeryplanning.org to schedule a follow-up site visit.

1. Written Description of Project

a. Description of existing structure(s)

8012 Hampden Lane is located within the Greenwich Forest historic district, which was developed in the 1930's. The neighborhood is characterized by rolling terrain, tall trees, and homes reminiscent of England. The home was built in 1938 in the tudor style, with exterior made of stone and brick. Features of the home include a covered front porch, attached garage, flagstone walkway, rear wood deck, and a landscaped backyard with raised stone flower beds.

b. General description of project

The purpose of this project is to install a wooden storage shed in the backyard of the property. The shed will be purchased from a pre-fab shed building company, such as High Point Buildings, and will be delivered to the site. The shed will be constructed of wood and be approximately 8’ x 16’ in footprint.
2. Site Plan

HAMPDEN LANE

LOT 3
11,302 S.F.

NOTES:
1. THIS IMPROVEMENT LOCATION DRAWING
   IS OF BENEFIT TO A CONSUMER ONLY INsofar AS IT IS REQUIRED BY A LENDER OR A TITLE INSURANCE COMPANY OR ITS
   AGENT IN CONNECTION WITH CONTEMPLATED TRANSFER, FINANCING OR REFINANCING.
2. IT IS NOT TO BE RELIED UPON FOR THE ESTABLISHMENT OR LOCATION OF FENCES, GARAGES, BUILDINGS, OR OTHER EXISTING OR
   FUTURE IMPROVEMENTS, AND
3. IT DOES NOT PROVIDE FOR THE ACCURATE IDENTIFICATION OF PROPERTY BOUNDARY LINES, BUT SUCH IDENTIFICATION MAY NOT
   BE REQUIRED FOR THE TRANSFER OF TITLE OR SECURING FINANCING OR REFINANCING.
4. THE LEVEL OF ACCURACY OF APPARENT SETBACK DISTANCES IS ONE FOOT, MORE OR LESS.
5. THIS PLAT WAS PREPARED WITHOUT BENEFIT OF A TITLE REPORT.

SCALE: 1" = 30'
DATE: 5/11/16
3. Plans and Elevations

a. Schematic Construction Plan

Minimum 5’ setback will be observed from all property lines.

New shed installation.
Approx. 8’ x 16’ footprint
b. Elevations (facades)

Figure A: Elevation of the new shed location as viewed from the property driveway. The shed will be located in the backyard behind the paddock fence. The backyard drops about 3’ in elevation from the level of the motor court. Therefore, only about the top 2’ of the shed building will be visible above the existing 5’ wooden fence.
4. Material Specifications

The work consists of installation of a wooden storage shed in the backyard of the property. The shed will have a footprint of approximately 8’ x 16’. The siding will be painted wood with wooden trim painted in an accent color. The color of the shed will be “Almond”, a dark beige, while the accent color will be white. The roofing will be gray shingles. This is to harmonize with the color of the existing house structure.

Figure C: Rendering of the shed showing the size, shape, appearance and color. Left: Front view showing the shed as will be seen from the back yard. Center: Side view of the shed; this is the profile of the shed that faces the street. Right: Quarter view of the shed as seen from the back deck of the house.
5. Photographs

a. Existing resources

Figure D: Proposed site of the shed is currently a plant bed comprising a combination of ivy, dirt, and mulch. The installation requires no tree removal.

Figure E: View of the proposed site from the motor court behind the house.
b. View from public right-of-way

Figure F: View from Hampden Lane, showing the driveway, motor court, and fencing that leads to the backyard, where the shed will be installed.
