MONTGOMERY COUNTY HISTORIC PRESERVATION COMMISSION
STAFF REPORT

Address: 3807 Williams Lane, Chevy Chase
Meeting Date: 12/2/2020

Resource: Master Plan Site #35/77
Report Date: 11/25/2020
(Frank Simpson House)

Applicant: Peter Bass
Public Notice: 11/18/2020

Review: HAWP
Tax Credit: N/A

Case Number: 35/77-20A
Staff: Michael Kyne

PROPOSAL: New accessory structure

STAFF RECOMMENDATION:

Staff recommends that the HPC approve the HAWP application.

ARCHITECTURAL DESCRIPTION:

SIGNIFICANCE: Individually Listed Master Plan Site #35/77, Frank Simpson House
STYLE: Queen Anne
DATE: 1898

Excerpt from Places from the Past:

The Simpson House was the first house built on the former Williams Farm on land sold by Clayton Williams to a non-family member. It represents the beginning of the Williams Station community that grew along Williams Lane providing newcomers with access to the Chevy Chase Land Company streetcar stop located on Connecticut Avenue. Frank Simpson built the house in 1898. Simpson was a prominent local builder whose extended family lived and worked in Chevy Chase in various branches of the construction business. The spacious frame residence is a fine example of Queen Anne architecture as interpreted by an accomplished local builder. The house retains a high level of architectural integrity.
Fig. 1: Subject property.

PROPOSAL:

The applicant proposes to install a new accessory structure at the east side (right, as viewed from the public right-of-way of Williams Lane) of the subject property.

APPLICABLE GUIDELINES:

When reviewing alterations and new construction at individually listed Master Plan Sites, several documents are to be utilized as guidelines to assist the Commission in developing their decision. These documents include Montgomery County Code Chapter 24A-8 (Chapter 24A-8) and the Secretary of the Interior’s Standards for Rehabilitation (Standards). The pertinent information in these documents is outlined below.

Montgomery County Code; Chapter 24A-8

(b) The commission shall instruct the director to issue a permit, or issue a permit subject to such conditions as are found to be necessary to ensure conformity with the purposes and requirements of this chapter, if it finds that:

(1) The proposal will not substantially alter the exterior features of an historic site or historic resource within an historic district; or

(2) The proposal is compatible in character and nature with the historical, archeological, architectural or cultural features of the historic site or the historic district in which an historic resource is located and would not be detrimental thereto or to the achievement of the purposes of this chapter; or

(3) The proposal would enhance or aid in the protection, preservation and public or private utilization of the historic site or historic resource located within an historic district in a
manner compatible with the historical, archeological, architectural or cultural value of the
historic site or historic district in which an historic resource is located; or

(4) The proposal is necessary in order that unsafe conditions or health hazards be remedied; or

(5) The proposal is necessary in order that the owner of the subject property not be deprived of
reasonable use of the property or suffer undue hardship; or

(6) In balancing the interests of the public in preserving the historic site or historic resource
located within an historic district, with the interests of the public from the use and benefit
of the alternative proposal, the general public welfare is better served by granting the
permit.

(c) It is not the intent of this chapter to limit new construction, alteration or repairs to any 1 period or
architectural style.

Secretary of Interior’s Standards for Rehabilitation

The Secretary of the Interior defines rehabilitation as “the act or process of making possible a compatible
use for a property through repair, alterations, and additions while preserving those portions or features,
which convey its historical, cultural, or architectural values.” Standards #2, #9, and #10 most directly
apply to the application before the commission:

#2. The historic character of a property shall be retained and preserved. The removal of historic
materials or alteration of features and spaces that characterize a property shall be avoided.

#9. New additions, exterior alterations, or related new construction shall not destroy historic materials
that characterize the property. The new work shall be differentiated from the old and shall be
compatible with the massing, size, scale, and architectural features to protect the historic integrity of
the property and its environment.

#10. New additions and adjacent or related new construction shall be undertaken in such a manner that
if removed in the future, the essential form and integrity of the historic property and its environment
would be unimpaired.

PROPOSAL:

The applicant proposes to install a new accessory structure at the east side (right, as viewed from the
public right-of-way of Williams Lane) of the subject property. The proposed accessory structure is
intended for bicycle storage, and it will replace an existing temporary/makeshift bicycle storage area
constructed from logs and plastic tarps in the same location. The proposed location was selected for ease
of access, as it is just north of the existing driveway and just to the west of an existing concrete walkway
at the east side of the property, which connects the driveway to an existing ADU at the northeast
(rear/right) side of the property. There is an existing wooden picket fence at the northernmost end of the
driveway that will partially obscure the view of the proposed accessory structure from the right-of-way of
Williams Lane.

The proposed new accessory structure will have the following specifications:

- Painted T111 wood siding and painted metal trim
• Pressure treated wood skids base
• 8’ x 8’
• 4’ (48”) high side walls with gambrel roof for additional height
• Overall height of 7’-10” (94”)
• 4’ x 6’ wood double doors on the front (east) elevation
• One 18” x 23” single-hung vinyl window on the rear (west) elevation (this window will not be at all visible from the public right-of-way)
• Architectural asphalt shingles

Staff supports the applicant’s proposal, finding the proposed design and materials to be generally compatible with the subject property. The proposed alterations will not remove or alter character-defining features of the subject property or surrounding streetscape, in accordance with Standards #2 and #9. In accordance with Standard #10, the proposed new accessory structure can be removed in the future without impairing the essential form and integrity of the historic property and its environment.

After full and fair consideration of the applicant’s submission staff finds the proposal as being consistent with the Criteria for Issuance in Chapter 24A-8(b) 1 and 2, having found the proposal is consistent with the Secretary of the Interior’s Standards for Rehabilitation #2, #9, and #10 outlined above.

**STAFF RECOMMENDATION:**

Staff recommends that the Commission approve the HAWP application under the Criteria for Issuance in Chapter 24A-8(b) 1 and 2, having found that the proposal will not substantially impact the historic resource and is consistent with the purposes of Chapter 24A;

and with the Secretary of the Interior’s Standards for Rehabilitation #2, #9, and #10;

and with the general condition that the applicant shall present the 3 permit sets of drawings, if applicable to Historic Preservation Commission (HPC) staff for review and stamping prior to submission for the Montgomery County Department of Permitting Services (DPS) building permits;

and with the general condition that final project design details, not specifically delineated by the Commission, shall be approved by HPC staff or brought back to the Commission as a revised HAWP application at staff’s discretion;

and with the general condition that the applicant shall notify the Historic Preservation Staff if they propose to make any alterations to the approved plans. Once the work is completed the applicant will contact the staff person assigned to this application at 301-563-3400 or michael.kyne@montgomeryplanning.org to schedule a follow-up site visit.

Description of Property: Please describe the building and surrounding environment. Include information on significant structures, landscape features, or other significant features of the property:

Main structure is the Frank Simpson house, located on the north side of Williams Lane in the Village of Chevy Chase, Section 5. Main house is a 2-1/2-story, L-shaped Queen Anne house characterized by its projecting front gable and wrap-around porch. There is a stone patio off of the northwest corner of the house.

There is a 1-1/2-story frame stand-alone guesthouse at the northeast corner of the parcel. The remainder of the backyard is primarily lawn and shrubbery plantings.

Description of Work Proposed: Please give an overview of the work to be undertaken:

A utility shed, 8' x 8', pre-fabricated, purchased from Walmart, Home Depot or equivalent. Structure will contain gardening equipment and bicycles.
