EXPEDITED
MONTGOMERY COUNTY HISTORIC PRESERVATION COMMISSION
STAFF REPORT

Address: 4709 Dorset Ave., Chevy Chase

Meeting Date: 3/24/2021

Resource: Primary (Pre-1915) Resource
(Somerset Historic District)

Report Date: 3/17/2021

Applicant: Michael Gottlieb and Julianna Goldman
(Amy Mills, Agent)

Public Notice: 3/10/2021

Tax Credit: No

Review: HAWP

Staff: Michael Kyne

Case Number: 943925

PROPOSAL: Hardscape alterations, new railings, and new fence

STAFF RECOMMENDATION:

☑ Approve
☐ Approve with conditions

ARCHITECTURAL DESCRIPTION:

SIGNIFICANCE: Primary (Pre-1915) Resource within the Somerset District

STYLE: Colonial Revival/Queen Anne

DATE: c. 1900

Fig. 1: Subject property.
PROPOSAL

The applicants propose the following work items at the subject property:

- Replace the existing stone front walkway with a bluestone paver walkway.
- Replace the existing stone steps at the front sidewalk. The proposed new steps will reuse the existing footer but will have bluestone treads and fieldstone risers to match existing steps at the east (right, as viewed from the public right-of-way of Dorset Avenue) side of the property.
- Install a new black metal handrail along the left side of the steps at the front sidewalk to match an existing railing at the rear of the property.
- Replace the existing concrete and stone facing on the front stoop with bluestone treads and stone risers to match the existing east (right) side stoop.
- Replace the existing black iron handrails along both sides of the front stoop with new black metal handrails to match an existing railing at the rear of the property.
- Replace the existing 48” high solid wooden stockade style fence at the southwest (front/left) property line with a new solid wooden fence at a maximum height of 48”. The new fence style will match previously approved 6’ high fencing at the rear and sides/rear of the subject property.

Staff notes that, as part of a previous September 2019 proposal, it was determined that the subject property had a one-story wraparound front porch until at least 1963 (as demonstrated by the 1963 Sanborn Fire Insurance Map). After 1963, the east (right) side one-story addition with gambrel roof was constructed, and the wraparound front porch was removed. This demonstrates that the existing front stoop and black iron handrails are not historic and/or original.

APPLICABLE GUIDELINES:

IV. The Expedited Staff Report format may be used on the following type of cases:

2. Modifications to a property, which do not significantly alter its visual character.

10. Construction of fences that are compatible with historic site or district in terms of material, height, location, and design. Requests for fences higher than 48” to be located in the front yard of a property will not be reviewed using an Expedited Staff Report.

11. Construction or replacement of walkways, parking areas, patios, driveways or other paved areas that are not readily visible from a public right-of-way and/or are compatible in material, location, and design with the visual character of the historic site or district.

Montgomery County Code; Chapter 24A-8

(b) The commission shall instruct the director to issue a permit, or issue a permit subject to such conditions as are found to be necessary to insure conformity with the purposes and requirements of this chapter, if it finds that:

(1) The proposal will not substantially alter the exterior features of an historic site or historic resource within an historic district; or

(2) The proposal is compatible in character and nature with the historical, archeological, architectural or cultural features of the historic site or the historic district in which an historic resource is located and would not be detrimental thereto or to the achievement of the purposes of this chapter; or
(3) The proposal would enhance or aid in the protection, preservation and public or private utilization of the historic site or historic resource located within an historic district in a manner compatible with the historical, archeological, architectural or cultural value of the historic site or historic district in which an historic resource is located; or

(4) The proposal is necessary in order that unsafe conditions or health hazards be remedied; or

(5) The proposal is necessary in order that the owner of the subject property not be deprived of reasonable use of the property or suffer undue hardship; or

(6) In balancing the interests of the public in preserving the historic site or historic resource located within an historic district, with the interests of the public from the use and benefit of the alternative proposal, the general public welfare is better served by granting the permit.

(c) It is not the intent of this chapter to limit new construction, alteration or repairs to any 1 period or architectural style.

(d) In the case of an application for work on an historic resource located within an historic district, the commission shall be lenient in its judgment of plans for structures of little historical or design significance or for plans involving new construction, unless such plans would seriously impair the historic or architectural value of surrounding historic resources or would impair the character of the historic district. (Ord. No. 9-4, § 1; Ord. No. 11-59.)

Secretary of Interior’s Standards for Rehabilitation

The Secretary of the Interior defines rehabilitation as “the act or process of making possible a compatible use for a property through repair, alterations, and additions while preserving those portions or features, which convey its historical, cultural, or architectural values.” The Standards are as follows:

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and its environment.

10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

STAFF RECOMMENDATION:

Staff recommends that the Commission approve the HAWP application under the Criteria for Issuance in Chapter 24A-8(b), (1), (2) & (d), having found that the proposal will not substantially alter the exterior features of the historic resource and is compatible in character with the district and the purposes of Chapter 24A;

and with the Secretary of the Interior’s Standards for Rehabilitation #2, #9, and #10;

and with the general condition that the applicant shall present an electronic set of drawings, if applicable, to Historic Preservation Commission (HPC) staff for review and stamping prior to submission for the Montgomery County Department of Permitting Services (DPS) building permits;
and with the general condition that final project design details, not specifically delineated by the
Commission, shall be approved by HPC staff or brought back to the Commission as a revised HAWP
application at staff’s discretion;

and with the general condition that the applicant shall notify the Historic Preservation Staff if they
propose to make any alterations to the approved plans. Once the work is completed the applicant will
contact the staff person assigned to this application at 301-563-3400 or
michael.kyne@montgomeryplanning.org to schedule a follow-up site visit.
APPLICATION FOR
HISTORIC AREA WORK PERMIT
HISTORIC PRESERVATION COMMISSION
301.563.3400

APPLICANT:
Michael Gottlieb & Julianna Goldman - owners
Name: ______________________________________
Address: 4709 Dorset Avenue
Daytime Phone: 917-553-5596

AGENT/CONTACT (if applicable):
Amy Mills, DCA Landscape Architects
