EXPEDITED
MONTGOMERY COUNTY HISTORIC PRESERVATION COMMISSION
STAFF REPORT

Address: 17 Hesketh Street, Chevy Chase

Resource: Contributing Resource
(Chevy Chase Village Historic District)

Applicant: Suzanne Mullins

Meeting Date: 4/14/2021

Report Date: 4/7/2021

Public Notice: 3/31/2021

Review: HAWP

Tax Credit: No

Staff: Michael Kyne

Permit Number: 945746

PROPOSAL: Hardscape alterations

STAFF RECOMMENDATION:

☑ Approve
☐ Approve with conditions

ARCHITECTURAL DESCRIPTION:

SIGNIFICANCE: Contributing Resource within the Chevy Chase Village Historic District

STYLE: Classical Revival

DATE: c. 1892-1916

Fig. 1: Subject property, as marked by the blue star.
PROPOSAL:

The applicant proposes the following work items at the subject property:

- Relocate the existing front walkway and change the walkway material.
  - The current walkway is centered with the house, while the proposed new walkway will turn to the east (right) and then return to the Village sidewalk.
  - The new walkway will be adjacent to the west (left) side of the driveway.
  - The existing walkway is concrete, while the proposed new walkway will be flagstone.
- Replace the existing concrete driveway at the east (right) side of the property with a cobblestone driveway in the same location.
  - The existing concrete apron will be replaced in-kind.
- Install a new lighted stone column with property address at the front of the property on the west (left) side of the driveway.
- Construct a new flagstone BBQ area at the rear of the house.

APPLICABLE GUIDELINES:

IV. The Expedited Staff Report format may be used on the following type of cases:

2. Modifications to a property, which do not significantly alter its visual character.

11. Construction or replacement of walkways, parking areas, patio, driveways or other paved areas that are not readily visible from a public right-of-way and/or are compatible in material, location, and design with the visual character of the historic site or district.

Montgomery County Code; Chapter 24A-8

(b) The commission shall instruct the director to issue a permit, or issue a permit subject to such conditions as are found to be necessary to insure conformity with the purposes and requirements of this chapter, if it finds that:

1. The proposal will not substantially alter the exterior features of an historic site or historic resource within an historic district; or

2. The proposal is compatible in character and nature with the historical, archeological, architectural or cultural features of the historic site or the historic district in which an historic resource is located and would not be detrimental thereto or to the achievement of the purposes of this chapter; or

3. The proposal would enhance or aid in the protection, preservation and public or private utilization of the historic site or historic resource located within an historic district in a manner compatible with the historical, archeological, architectural or cultural value of the historic site or historic district in which an historic resource is located; or

4. The proposal is necessary in order that unsafe conditions or health hazards be remedied; or

5. The proposal is necessary in order that the owner of the subject property not be deprived of reasonable use of the property or suffer undue hardship; or

6. In balancing the interests of the public in preserving the historic site or historic resource located within an historic district, with the interests of the public from the use and benefit of the alternative proposal, the general public welfare is better served by granting the permit.

(c) It is not the intent of this chapter to limit new construction, alteration or repairs to any 1 period or architectural style.

(d) In the case of an application for work on an historic resource located within an historic district,
the commission shall be lenient in its judgment of plans for structures of little historical or design significance or for plans involving new construction, unless such plans would seriously impair the historic or architectural value of surrounding historic resources or would impair the character of the historic district. (Ord. No. 9-4, § 1; Ord. No. 11-59)

**Secretary of Interior’s Standards for Rehabilitation**

The Secretary of the Interior defines rehabilitation as “the act or process of making possible a compatible use for a property through repair, alterations, and additions while preserving those portions or features, which convey its historical, cultural, or architectural values.” The Standards are as follows:

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and its environment.

10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

**STAFF RECOMMENDATION:**

Staff recommends that the Commission approve the HAWP application under the Criteria for Issuance in Chapter 24A-8(b), (1), (2) & (d), having found that the proposal, as modified by the condition, is consistent with the Chevy Chase Village Historic District Guidelines, and therefore will not substantially alter the exterior features of the historic resource and is compatible in character with the district and the purposes of Chapter 24A;

and with the Secretary of the Interior’s Standards for Rehabilitation #2, #9, and #10;

and with the general condition that the applicant shall present an electronic set of drawings, if applicable, to Historic Preservation Commission (HPC) staff for review and stamping prior to submission for the Montgomery County Department of Permitting Services (DPS) building permits;

and with the general condition that final project design details, not specifically delineated by the Commission, shall be approved by HPC staff or brought back to the Commission as a revised HAWP application at staff’s discretion;

and with the general condition that the applicant shall notify the Historic Preservation Staff if they propose to make any alterations to the approved plans. Once the work is completed the applicant will contact the staff person assigned to this application at 301-563-3400 or michael.kyne@montgomeryplanning.org to schedule a follow-up site visit.

Description of Property: Please describe the building and surrounding environment. Include information on significant structures, landscape features, or other significant features of the property:

17 Hesketh is a three-level, single-family residence located in the middle of the north side of the historic block of Hesketh Street. The original house is a stucco, Classic New Orleans Revival style home built in 1915 or 1916. The house was extensively renovated in 2018 and a large addition was added to the rear of the house with wood composite siding. During the construction, the building materials were placed under a large Southern Magnolia in the front yard. The health of the tree suffered due to compression of the root system.

Description of Work Proposed: Please give an overview of the work to be undertaken:

We purchased the house after the 2018 remodel and have had an arborist treat the roots of the magnolia. This proposed project would relocate the existing concrete sidewalk away from the mature Southern Magnolia, turn towards the driveway and flank the driveway out to the existing village sidewalk. By flanking the sidewalk, we will not need to expand the width of the existing narrow driveway which often requires us to step on grass when getting out of the cars.

We would also replace the materials of the sidewalk and the existing driveway (i.e., off white concrete) with flagstone and cobblestone, respectively, to improve their appearance and complement the coloring of the stucco. The long part of the sidewalk would be 1" wider than the existing sidewalk.

As part of this landscaping project, our designer has also recommended adding a new stone pedestal column with address plate and lights (18" x 18" x 2'H) on private property at the beginning of the plantings next to the new sidewalk.

The plans also include adding a small flagstone BBQ area below the raised back deck at the rear of the property which cannot be viewed from the street.

No trees would be removed as part of this project and the Village Arborist has determined "no tree protection required to install the attached landscape plan" (See letter dated 22 MAR 2021)

See Proposed Landscaping Plan drawing.

Property Owner: Suzanne Mullins
Project Manager/Contractor: Owner is contact
Proposed Work: Install features at grade to include cobble stone driveway, flagstone walkway, and flagstone grill pad, and to construct a lighted address post

3/16/21

Mitra Pedoeem, Director
Department of Permitting Services of Montgomery County
255 Rockville Pike, 2nd floor
Rockville, MD 20850

Dear Ms. Pedoeem,

This letter is to inform your department that the above homeowner/contractor has notified Chevy Chase Village that he or she plans to apply for both county and municipal permits for the above summarized construction project. Chevy Chase Village will not issue any municipal building permit(s) for this proposed project until Montgomery County has issued all necessary county permits and the applicant has provided Chevy Chase Village with copies of county-approved and stamped plans. We have advised the homeowner/contractor that a permit from Montgomery County does not guarantee a permit from this municipality unless the project complies with all our municipal rules and regulations.

If this homeowner/contractor later applies for an amended county permit, please do not approve that application until you have received a Municipality Letter from us indicating that the homeowner/contractor has notified us of that proposed amendment to the permit.

If you have any questions about this proposed project and the municipal regulation of it by Chevy Chase Village, do not hesitate to have your staff contact my office. The Village Permitting Coordinator can be reached by phone at 301-654-7300 or by e-mail at ccvpermitting@montgomerycountymd.gov.

Sincerely,

Shana R. Davis-Cook
Chevy Chase Village Manager
Tree Preservation Plan – 17 Hesketh Street

I recommend issuance of the Building Permit conditioned on the Owner's compliance with the tree preservation plan shown on the attached sheet and as stated below.

Attached is a map of the tree preservation plan for the residence 17 Hesketh Street

No tree protection required to install the attached landscape plan.
HISTORIC AREA WORK PERMIT APPLICATION
Application Date: 3/17/2021

Application No: 945746
AP Type: HISTORIC
Customer No: 1400504

Comments
The straight part of the sidewalk would be 1" wider than the current sidewalk (i.e., 60" vs 59"). All proposed work is on our private property. See Municipality Letter for Proposed Construction Project from Chevy Chase Village.

Affidavit Acknowledgement
The Homeowner is the Primary applicant
This application does not violate any covenants and deed restrictions

Homeowner Mullins (Primary)

Historic Area Work Permit Details
Work Type ALTER
Scope We would like to change the materials of our existing concrete sidewalk and driveway and relocate the sidewalk as follows: 1. The new cobblestone driveway would be in the same location and size of the existing driveway. 2. The new flagstone sidewalk would immediately curve away from the roots of our mature Southern Magnolia and turn to flank the driveway until ending at the existing village brick sidewalk.
