Resource: Master Plan Site #35/47  
Report Date: 7/7/2021
(Bonfield’s Garage)  
Public Notice: 6/30/2021
Applicant: William Fuchs
Tax Credit: No
Review: HAWP
Staff: Michael Kyne
Permit Number: 936957 REVISION

PROPOSAL: New tenant sign

STAFF RECOMMENDATION:

☑ Approve
☐ Approve with conditions

ARCHITECTURAL DESCRIPTION:

SIGNIFICANCE: Master Plan Site #35/47, Bonfield’s Garage
STYLE: Automobile Repair Garage
DATE: c. 1927

Excerpt from Places from the Past:

Bonfield’s Garage, one of the last early automobile repair garages, represents the transformation of lower Montgomery County from a farming community into a residential suburb. The Bonfield family opened an auto repair garage here about 1927. For 70 years, Walter Bonfield, inheriting the business from his father, operated the garage and lived in the second-level apartment over the shop. Adjacent to the building are open-air grease pits, predating the hydraulic lifts in today’s service stations. Bonfield expanded his business in 1936, installing gas pumps to supplement the automobile repair service. The 2½-story front-gable structure is a traditional building form used for commercial structures as early as the mid-1800s. In contrast, the metal streamline sign announcing Bonfield’s services was a response to the faster pace of the automobile age.
Fig. 1: Subject property.

PROPOSAL:

The applicant proposes to install a new tenant sign at the subject property.

The proposed sign was previously approved at the January 27, 2021 HPC meeting. Subsequently, the Department of Permitting Services (DPS) denied the sign application, as it was determined to be a roof sign, which are not permitted. The proposed sign is identical to the previously approved sign, but it will be lowered and mounted to the face of the existing southeast (left) side addition. DPS has determined that this does not qualify as a roof sign and thus meets the code requirements.

APPLICABLE GUIDELINES:

IV. The Expedited Staff Report format may be used on the following type of cases:

2. Signs that are in conformance with all other County sign regulations.

Montgomery County Code; Chapter 24A-8

(b) The commission shall instruct the director to issue a permit, or issue a permit subject to such conditions as are found to be necessary to insure conformity with the purposes and requirements of this chapter, if it finds that:
   (1) The proposal will not substantially alter the exterior features of an historic site or historic resource within an historic district; or

---

(2) The proposal is compatible in character and nature with the historical, archeological, architectural or cultural features of the historic site or the historic district in which an historic resource is located and would not be detrimental thereto or to the achievement of the purposes of this chapter; or

(3) The proposal would enhance or aid in the protection, preservation and public or private utilization of the historic site or historic resource located within an historic district in a manner compatible with the historical, archeological, architectural or cultural value of the historic site or historic district in which an historic resource is located; or

(4) The proposal is necessary in order that unsafe conditions or health hazards be remedied; or

(5) The proposal is necessary in order that the owner of the subject property not be deprived of reasonable use of the property or suffer undue hardship; or

(6) In balancing the interests of the public in preserving the historic site or historic resource located within an historic district, with the interests of the public from the use and benefit of the alternative proposal, the general public welfare is better served by granting the permit.

(c) It is not the intent of this chapter to limit new construction, alteration or repairs to any 1 period or architectural style.

**Secretary of Interior’s Standards for Rehabilitation**

The Secretary of the Interior defines rehabilitation as “the act or process of making possible a compatible use for a property through repair, alterations, and additions while preserving those portions or features, which convey its historical, cultural, or architectural values.” The applicable Standards are as follows:

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and its environment.

**STAFF RECOMMENDATION:**

Staff recommends that the Commission approve the HAWP application under the Criteria for Issuance in Chapter 24A-8(b) (1) and (2), having found that the proposal will not substantially alter the exterior features of the historic resource and is compatible with the purposes of Chapter 24A;

and with the Secretary of the Interior’s Standards for Rehabilitation #2 and #9;

and with the general condition that the applicant shall present an electronic set of drawings, if applicable, to Historic Preservation Commission (HPC) staff for review and stamping prior to submission for the Montgomery County Department of Permitting Services (DPS) building permits;

and with the general condition that final project design details, not specifically delineated by the
Commission, shall be approved by HPC staff or brought back to the Commission as a revised HAWP application at staff’s discretion;

and with the general condition that the applicant shall notify the Historic Preservation Staff if they propose to make **any alterations** to the approved plans.

Once the work is completed the applicant will **contact the staff person** assigned to this application at 301-563-3400 or michael.kyne@montgomeryplanning.org to schedule a follow-up site visit.
